

Allied Health- Practical Nursing

Make a REAL difference in the lives of others!

What is Practical Nursing?

No matter the healthcare setting, chances are you've been cared for by a practical nurse. Practical nurses work under the direction of physicians, registered nurses, and licensed dentists. While the duties of practical nurses vary depending on the workplace, practical nurses will generally:

- Provide direct, individualized nursing care
- Assist with health care teaching
- Monitor patients' health status
- Provide support to patients and their families/significant others
- Participate in the planning, implementation, and evaluation of nursing care

If you love helping others and you look forward to new challenges every day, then you'll thrive as a practical nurse!

By continuing in the Allied Health associate degree courses for two semesters, you will graduate with your associate degree in Allied Health Practical Nursing!

Upon completion of the program and successfully passing the NCLEX-PN, the National Council Licensure Exam, students have the option to begin their career as a Licensed Practical Nurse or transfer their degree to a four-year college or university into a Licensed Practical Nurse to Registered Nurse bridge program, or Bachelor of Science degree program in Nursing.

Why is the program beneficial to me?

The passing of recent healthcare legislation makes this a unique time for job growth in all levels of allied health! The focus on patient outcomes and preventative care will increase the demand for nurses.

Our Allied Health – Practical Nursing degree provides you with lecture, lab and clinical hours to prepare you to successfully earn your license. After earning your degree, you are prepared to start work immediately. P.I.T. will prepare you for the next step that's right for YOU!

Why choose P.I.T. for your Allied Health – Practical Nursing Degree

1. Experienced Instructors

Our instructors either come from a real world background or still hold positions in the health care field. They share their working knowledge to better prepare our students to enter the workplace.

2. Intimate learning environment and family atmosphere

Our instructors know each student on a first name basis. Smaller class sizes allow us to focus on each student's individual strengths and areas in need of improvement.

3. Learn at your own pace! – E-Learning at P.I.T

A number of courses are blended learning, enabling students to spend less time in class and more time learning. You meet once a week with the instructor and the rest of the time interacting with your instructor over the Internet.

4. Free tutoring

Scheduled tutoring from both instructors and honor students is available to ALL P.I.T. students, free of charge!

5. Portfolio Building and Interview Coaching

The value of a P.I.T. education extends beyond the classroom! Our instructors work hard to prepare graduates through portfolio building and interview coaching.
