

# Clinical Medical Assistant

## Breathe *NEW LIFE* into your career!

In only eleven months, you can earn the skills and knowledge you need to successfully become a Certified Medical Assistant!

### What is a Clinical Medical Assistant?

Clinical medical assistants provide support to both healthcare professionals and patients. Our graduates are prepared for direct patient care positions working side by side with a physician or other health care professionals. Any time you visit your doctor's office, you'll more than likely interact with a clinical medical assistant. These professionals assist in a range of tasks, including taking your medical history and performing routine procedures and tests.

*If you look forward to working as part of a team and helping patients, you will be a great clinical medical assistant.*

### What kind of career will I have?

Clinical Medical Assistants generally work in the following settings:

- Doctor's offices
- Multi doctor practices
- Home healthcare
- EKG testing facilities
- Surgical centers
- Urgent care clinics
- Medical laboratories

### Where can I go after a Clinical Medical Assistant Certification?

Every credit earned in the Medical Billing and Coding program counts towards earning an associate degree in Allied Health at P.I.T.. You can start working in your field right after graduation or you can continue with classes Allied Health to earn your degree. P.I.T. will prepare you for the next step that's right for YOU!

# Why choose P.I.T. for your Clinical Medical Assistant education?

## 1. Earn Your Certifications

Our Clinical Medical Assistant track is designed so students can earn their certifications as they finish their classes.

## 2. Experienced Instructors

Our instructors either come from a real world background or still hold positions in the health care field. They share their working knowledge to better prepare our students to enter the workplace.

## 3. Intimate learning environment and family atmosphere

Our instructors know each student on a first name basis. Smaller class sizes allow us to focus on each student's individual strengths and areas in need of improvement.

## 4. Learn at your own pace! – E-Learning at P.I.T

A number of courses are blended learning, enabling students to spend less time in class and more time learning. You meet once a week with the instructor and the rest of the time interacting with your instructor over the Internet.

## 5. Free tutoring

Scheduled tutoring from both instructors and honor students is available to ALL P.I.T. students, free of charge!

## 6. Portfolio Building and Interview Coaching

The value of a P.I.T. education extends beyond the classroom! Our instructors work hard to prepare graduates through portfolio building and interview coaching.
