

Computer Science

Make computers and smart devices do great new things!

Achieve your goals fast and efficiently! In only eighteen months, you can earn your associates degree with our *NEW* term schedule!

What is the Computer Science Program?

The associate degree in Computer Science gives you the skills to analyze, design, implement, and maintain software and hardware in a systemic way. It also gives you the opportunity to transfer to a four year college or university to pursue a more specialized bachelor's degree in the computer science field.

Secure a competitive edge with the most current technology!

What kind of career will I have?

The Computer Science field is exploding with potential. Every employer needs professionals who can maximize productivity by developing software solutions. Highly trained and skilled professionals can pursue a career in:

- Website Development
- Computer Programmer
- Mobile Application Developer
- Software Engineering Specialist
- Systems Analyst
- Systems Design Associate
- Technical Support Specialist

Where can I go after P.I.T.?

P.I.T. launches you into a world of opportunity! You can transfer your associate degree credits to a four-year college or university to pursue your bachelor degree. You can start working in a computer science field of your choice right after graduation and pursue your bachelor degree part time. P.I.T. prepares you for the next step that is right for YOU!

Why choose P.I.T. for your Computer Science degree?

1. Experienced Instructors

Our instructors either come from a real world background or still hold positions in the health care field. They share their working knowledge to better prepare our students to enter the workplace.

2. Intimate learning environment and family atmosphere

Our instructors know each student on a first name basis. Smaller class sizes allow us to focus on each student's individual strengths and areas in need of improvement.

3. Learn at your own pace! – E-Learning at P.I.T

A number of courses are blended learning, enabling students to spend less time in class and more time learning. You meet once a week with the instructor and the rest of the time interacting with your instructor over the Internet.

4. Free tutoring

Scheduled tutoring from both instructors and honor students is available to ALL P.I.T. students, free of charge!

5. Portfolio Building and Interview Coaching

The value of a P.I.T. education extends beyond the classroom! Our instructors work hard to prepare graduates through portfolio building and interview coaching.

Computer Science Courses

- Calculus
- Computer Science Fundamentals
- Computer Systems Architecture
- Cybersecurity I
- Database Systems
- Discrete Mathematics
- Java
- LAN Server Administration
- Network Fundamentals
- Programming Fundamentals
- Programming Mobile Devices
- UNIX
- Web Programming
