

Medical Billing and Coding

The HEARTBEAT of the Allied Health field!

In only eleven months, you can earn the skills and knowledge you need to successfully become a Certified Medical Assistant!

What is Medical Billing and Coding?

The medical billing and coding department is the backbone of every doctor's office. Physicians and medical coding specialists use a set of specific codes that correspond with patients' diagnoses and procedures. Using these codes, medical billers are able to charge patients and their insurance companies for services. Physicians need support staffs who understand how crucial these skills are to the office's success.

If you are detail-oriented, if you love to multi-task, and if you are cool under pressure, then you'll be successful in medical billing and coding.

What kind of career will I have?

Medical Billing and Coding Professionals generally work in the following settings:

- Doctor's offices
- Hospitals
- Insurance companies
- Multi-doctor practices
- Surgical centers
- Urgent care clinics

Where can I go after a Medical Billing and Coding Certification?

Every credit earned in the Medical Billing and Coding program counts towards earning an associate degree in Allied Health at P.I.T.. You can start working in your field right after graduation or you can continue with classes Allied Health to earn your degree. P.I.T. will prepare you for the next step that's right for YOU!

Why choose P.I.T. for your Medical Coding and Billing education?

1. Earn Your Certifications

Our Clinical Medical Assistant track is designed so students can earn their certifications as they finish their classes.

2. Experienced Instructors

Our instructors either come from a real world background or still hold positions in the health care field. They share their working knowledge to better prepare our students to enter the workplace.

3. Intimate learning environment and family atmosphere

Our instructors know each student on a first name basis. Smaller class sizes allow us to focus on each student's individual strengths and areas in need of improvement.

4. Learn at your own pace! – E-Learning at P.I.T

A number of courses are blended learning, enabling students to spend less time in class and more time learning. You meet once a week with the instructor and the rest of the time interacting with your instructor over the Internet.

5. Free tutoring

Scheduled tutoring from both instructors and honor students is available to ALL P.I.T. students, free of charge!

6. Portfolio Building and Interview Coaching

The value of a P.I.T. education extends beyond the classroom! Our instructors work hard to prepare graduates through portfolio building and interview coaching.
