

2024-2025 Cost of Attendance

2024-2025 Direct Costs

These figures represent the typical tuition and fees for a full-time student and do not include financial aid or scholarships in the figures. This is only an estimated amount and is for the average traditional student.

Please use the 2024-2025 **Direct Cost** table to determine what you may be billed for tuition and fees.

*Some programs may charge additional course fees when applicable

Full-Time Undergraduate Student	Amount
Tuition	13,500
Technology Fees	1,350
Subtotal Direct Costs	14,850

2024-2025 Indirect Costs

The Cost of Attendance (COA) is the Office of Student Financial Aid Services' estimate of your educational expenses for the school year. **These figures do not represent your actual fee bill but are estimates.**

The total Cost of Attendance (COA) includes estimated direct educational costs and an estimate of indirect costs based on full-time attendance at P.I.T.. The housing and food estimate is an average of off campus housing costs and meals. Indirect costs such as books, course materials, supplies and equipment, transportation, miscellaneous personal expenses, and professional/licensure fees (if applicable to your program) do not appear on the fee bill.

Please note that students are billed separately for each term; therefore, the annual amounts described below may be divided by three to determine estimates for a single term.

Estimated Indirect Costs	Amount
Books, Course Materials, Supplies & Equipment	1,050
Transportation	1,500
Living Expenses (Housing and Food)	14,500
Personal Expenses	1350
Loan Fees	149
Subtotal Indirect Costs	18,549

NOTE: For information regarding actual current year costs, please visit the Business Office or Financial Aid Office.

Based on your enrollment, you will be billed each term by the Business Office for tuition and fees. Indirect costs such as books, course materials, supplies and equipment, off-campus housing, transportation and miscellaneous personal expenses are not payable to P.I.T. and are estimated to establish your COA and to help you and your family plan for the overall cost of your education. Students who are less-than-full-time will have certain expenses adjusted based on the number of credits for which they are enrolled, usually after the end of each term's add/drop period. Students who anticipate less-than-full-time enrollment should advise the Office of Student Financial Aid to ensure that their COA and financial aid offers are as accurate as possible.
