Pennsylvania Institute of Technology

INSTRUCTIONAL FACILITIES

Classrooms and laboratories at the Media campus are equipped with multimedia and other instructional technologies.

The average capacity for classrooms and laboratories is approximately 18-24 students. Most classrooms are equipped with LCD projectors, screens and audio-visual equipment.

Multimedia rooms have smartboard hardware with large computer screens, essential software, LCD projectors, screens and demonstration equipment.

Nursing and allied health laboratories are equipped with body simulators, hospital and physician simulation equipment as well as other instructional equipment.
