Pennsylvania Institute of Technology

EDUCATIONAL PROGRAMS

Students enrolled in a bachelor's degree, an associate degree, or a certificate program receive state-of-the-art instruction from instructors who have both the appropriate academic credentials and actual experience in their respective fields. The College's approach to instruction is to transfer knowledge to students, provide students with the opportunity to practice that knowledge with "hands-on" activities, and assess student learning outcomes to make sure that students have acquired the knowledge to succeed.

Student Success is the mission of the College. To ensure student success, the College provides at no additional cost instructional and tutoring opportunities through a number of programs including TRIO SSS, master and peer tutoring through the Student Success and Wellness Center, one-on-one academic support coaching, and a number of workshops throughout the academic year that help students succeed.

Small class size enables students to learn in a collegial classroom and laboratory environment continually interacting with the course instructor. Instructors mentor students in order to succeed in the program of study and assist them prepare for college transfer opportunities and careers in the respective occupational fields.

The College offers 2 baccalaureate degrees, 13 associate degree programs and 2 certificate programs.

More information on the Colleges academic programs can be found on the College's web site, www.pit.edu.
