✓ **Intimate Learning
Environment and Family
Atmosphere**

✓ **Portfolio Building and
Interview Coaching**

✓ **Learn at Your Own Pace
with eLearning at P.I.T.**

✓ **Free Tutoring**

A.S.

Allied Health–Pre-Nursing

Make a REAL Difference in others lives.

If you love helping others and you look forward to new challenges every day, then you'll thrive as a Practical Nurse!

What is the Allied Health—Pre-Nursing program?

No matter the healthcare setting, chances are you've been cared for by a Practical Nurse. Practical Nurses work under the direction of physicians, registered nurses, and licensed dentists. While the duties of Practical Nurses vary depending on the workplace, Practical Nurses will generally:

- Provide direct, individualized nursing care
- Assist with health care teaching
- Monitor patients' health
- Provide support to patients and their families/loved ones
- Participate in the planning, implementation, and evaluation of nursing care

Why is it beneficial?

This program is designed for students who seek to be candidates for acceptance into the competitive Practical Nursing program.

Courses are taught by highly experienced

instructors. To improve one's chances of being accepted into the Practical Nursing program, candidates should complete at least the first term.

Where can I go after P.I.T.?

Upon completion of the program and successfully passing the NCLEX®-PN to become an LPN, students have the option to begin their career as a Licensed Practical Nurse or transfer their degree to a four-year college or university from a Licensed Practical Nurse to a Registered Nursing bridge program or Bachelor of Science Nursing program.

ALLIED HEALTH (AH) - Pre-Nursing

Associate in Science (A.S.)

Recommended Course Sequence

Code	Course (Credits)	ENG 215	Analytical Writing (3)
AHT 180	TEAS Test Preparation (3)	_____	Free Elective (3)
BIO 140	Anatomy & Physiology for Practical Nursing (5)	HCM 219	Health Care Law and Ethics (3)
ENG 108	Composition (3)	MOT 115	Health Care in a Transcultural Environment (3)
MTH 130	Mathematics for Health Care Professionals (3)	PSY 204	Psychology of Gender and Culture
BIO 105	General Biology (3)	BEH 107	Mental Health Disorders (3)
BIO 106	General Biology Laboratory (1)	CHM 105	General Chemistry (3)
COM 108	Communications and Social Interaction (3)	CHM 106	General Chemistry Lab (1)
MTH 207*	Statistics (3)	PROGRAM TOTAL: 61	
PSY 109	Human Growth and Development (3)	*Prerequisite coursework is required.	
PSY 105	Introduction to Psychology (3)	NOTE: Additional course(s) may be required based on the results of a placement test.

Course Highlights

AHT180 TEAS Test Preparation

This course was developed utilizing ATI's TEAS Smart Prep program accelerating past traditional preparation methods with engaging content and frequent comprehension checks. This curriculum is designed as a self-directed tutorial and happens to be the most comprehensive preparation method, learner directed, TEAS prep solution on the market.

BIO 105—General Biology

This course examines fundamental molecular, cellular, and genetic principles characterizing plants and animals. Areas of study include scientific method and experimental design, computer graphing of data, cell structure and function, metabolic processes of respiration, cell reproduction, photosynthesis, and basic concepts of heredity.

BIO135—Anatomy & Physiology I

This course presents the structure and function of the human body using a systematic approach. It introduces the proper general terminology used to describe the relative position of body parts, body sections, and body regions. Laboratory instruction and activities include the study of human anatomy via computer software and more.
