Savvy: the tools to SUCCESS!**

Achieve your goals fast and efficiently! In under two years, earn your Associate Degree with our NEW term schedules.

What is the Business Management program?

The Business Management associate degree program teaches students fundamental concepts and skills in business. Students will become proficient in business management skills, such as financial accounting, organizational sustainability, entrepreneurship, marketing, and project management.

Why is the program beneficial to me?

The Business Management program enables you to immediately join the workforce in an entry-level position and/or earn a bachelor's degree at many of the area's colleges and universities. Many of P.I.T.'s Business Administration graduates who have entered the workforce immediately after graduation have found positions in:

- Accounting
- Advertising
- Finance
- Human Resources
- Management
- Marketing/Sales
- Starting their own business

Where can I go after P.I.T.?

In addition to being prepared for immediate employment, P.I.T. has transfer agreements with a number of colleges and universities in the area. These agreements enable you to transfer the college credits that you earned at P.I.T. and complete a bachelor's degree at any accredited college or university. P.I.T. will prepare you for the next step that's right for YOU!

Course Highlights

BUS 290—Entrepreneurship

This course prepares students for new business ventures, as well as how to prepare a business plan that may be used to generate financing to begin operations in a new business enterprise. Students will gain an understanding of the critical factors that are involved in idea formation, and development of new business ventures. Course topics include analyzing market potential.

BUS 226—Principals of Marketing

This is a course in which the main functions, institutions, and concepts of marketing are studied. Students are provided with an understanding of the marketing function. Topic areas include traditional areas of product, price, promotion, and placement, plus the growth of ethnic marketing and marketing ethics. Case studies are used to relate lecture topics to the real world.

BUS 218—Managerial Accounting

This course introduces the managerial tools and models available for planning, controlling, and decision making for partnerships and corporations. Specialized topics include budgeting, product costing, analytical performance, and appraisal ratios. Students utilize electronic work papers to solve problems.
