

Pennsylvania Institute of Technology

INSTRUCTIONAL FACILITIES

Classrooms and laboratories at the Media campus and the Center City Philadelphia location are well-equipped with multi-media and other instructional technologies.

The average capacity for classrooms and laboratories at both locations is approximately 24-30 students. Most classrooms are equipped with LCD projectors, screens and audio-visual equipment.

Computer laboratories have state-of-the art hardware with large computer screens, essential software, LCD projectors, screens and demonstration equipment.

Nursing and allied health laboratories are equipped with body simulators, hospital and physician simulation equipment as well as other instructional equipment.
